NEWS RELEASE

GOLD CANYON ENTERS INTO MULTIPLE NON-DISCLOSURE AGREEMENTS ON RARE EARTH PROSPECTS THROUGHOUT SCANDINAVIA

Gold Canyon Resources Inc. (GCU: TSX-V) (“Gold Canyon” or “the Company”) is pleased to announce that its wholly owned subsidiary Gold Canyon Kratz Spring LLC has entered into a number of Non-disclosure Agreements to evaluate tailings and mine dumps originating from IOCG +/-REE deposits in the countries of Finland and Norway. Work on this evaluation will be conducted as part of the Joint Exploration Agreement (JEA) between Gold Canyon Kratz Spring LLC and its joint venture participant Japan Oil, Gas and Metals National Corporation (JOGMEC), which was announced earlier this year. JOGMEC is a government organization established under the Japanese Ministry of Economy, Trade and Industry, and is responsible for fostering international exploration and development of strategic minerals, amongst other mineral and petroleum related activities. JOGMEC holds an 80% option to all of the JEA projects. The objective of the JEA is to identify, analyze and perform metallurgical evaluations leading to production of REEs from Iron Oxide Copper Gold +/-Rare Earth Element (IOCG+/-REE) style deposits.

The Scandinavian Peninsula hosts numerous IOCG deposits and is, in fact, the location where a number of the Rare Earth Elements and their natural minerals were first identified or discovered. Deposits which will be evaluated by the Company include the Koldal Mine, Tellnes Mine, and Bidjovagge mine in Norway, and the Raajärvi Mine in Finland. Other deposits may also be included in the field evaluation.

The IOCG style mineralization of the selected Finnish and Norwegian mine tailings and dumps, have not been subjected to extensive study to determine the commercial recovery of REE. However, other IOCG deposits throughout the world have emerged as having significant resources of REE. Gold Canyon Kratz Spring, as operator of the JEA, will start evaluation of the selected Scandinavian Mines tailings and dumps immediately.

About Gold Canyon Resources Inc.:

Gold Canyon is engaged in the acquisition and exploration of mineral and precious metals properties. The Company controls a 100% interest in the Springpole Gold - Horseshoe Island Gold, Platinum, Palladium Project and Favourable Lake Poly-metallic property currently under option to Shoreham Resources Inc. pursuant to an option and joint venture agreement entered into in December 2005 - all in the Red Lake Mining District of Ontario, Canada.

Through its wholly owned U.S. subsidiary, Gold Canyon Resources USA Inc., the Company controls a 100% interest in the Cordero Gallium Project situated in Humboldt County, Nevada, U.S.A.

Gold Canyon entered into a Joint Exploration Agreement with the Japan Oil, Gas and Metals National Corporation (JOGMEC) in January 2009.

Certain statements contained in this news release using the terms "may", "expects to", "project", "estimate", "plans", and other terms denoting future possibilities, are forward-looking statements in respect to various issues including upcoming events based upon current expectations which involve risks and uncertainties that could cause actual outcomes and results to differ materially. The future conduct of the Company's business and the feasibility of its mineral exploration properties are dependent upon a number of factors and there can be no assurance that the Company will be able to conduct its operations as contemplated and the accuracy of these statements cannot be guaranteed as they are subject to a variety of risks that are beyond our ability to predict or control and which may cause actual results to differ materially from the projections or estimates contained herein. The risks include, but are not limited to, the risks described in the above press release; those risks set out in the company's disclosure documents and its annual, quarterly and current reports; the fact that exploration activities seldom result in the discovery of a commercially viable mineral resource and are also significant amounts of capital to undertake and the other risks associated with start-up mineral exploration operations with insufficient liquidity, and no historical profitability. The Company disclaims any obligation to revise any forward looking statements as a result of information received after the fact or regarding future events.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release.
